

Return of rental devices

Before returning your DILO device to us, it is imperative that you inform DILO if the substances used in the equipment are hazardous to health. This information is critical for the safety of our employees.

Before you send the rental device to us, it is imperative that you contact DILO and send us the completed form.

The form is then checked at DILO.

If all the information is in order, you will receive confirmation that you can attach the form to the unit for return shipment.

Thank you in advance.

Please return the completed checklist to your contact person at DILO.

Section 1: Device specifications

Type:

Year of construction:

Serial-no.:
